The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a *free* copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

WIFE LEADS RAID.

Mrs. McMillen, wife of Magistrate A. W. McMillen, of Pittsburg, Pa., early yesterday morning led the police in a raid on another woman's home and caught her husband there. Yesterday afternoon she appeared against him in court and had him held on a serious charge. Yesterday evening she announced that she would file suit for divorce today.

Mrs. McMillen and her husband gained notoriety a few months ago, when State Representative L. B Cook was caught in company with Mrs. McMillen and was seriously stabbed by her husband. McMillen has sued his wife for divorce and has sued Cook for alienation of his wife's affections.

Since that affair Mrs. McMillen, who has always declared her innocence, has been trailing her husband with detectives. At 2 o'clock yesterday morning she appeared at police headquarters with a private detective and asked that the house of Mrs. M. E. Ewing be raided.

McMillen was found in bed asleep. He was pulled out by the hair by his athletic wife, who turned him over to the police. He was held for court under $1,000 bail, which he has been unable to obtain.

RAID ON DISTILLERY.

Revenue Agents Knox and Hansberger early yesterday morning made a sensational raid on the bonded distillery of S. D. Shelton, located about fifteen miles from Danville. Shelton was placed under arrest on the charge of removing spirits on which the tax had not been paid, and W. E. Ramsey, the storekeeper and gauger, for collusion to defraud the government.

The officers concealed themselves near the place and surprised their men carrying the whisky and placing it in stamped barrels in the retail department. In a scuffle with them the officers were drenched with whisky.

The Federal grand jury, which convened at Danville today, will begin an extensive investigation of alleged frauds by the distillers and government employes. The records of the saloonkeepers in Danville, Lynchburg and Roanoke, and the books of the transportation companies will be examined, with a view of showing that more whisky has been sold than on which tax had been paid.

LINGERING COLD.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by Gibson & Timberman and W. F. Creighton & Co.

A Hard Debt to Pay

"I owe a debt of gratitude that can never be paid off," writes G S. Clark of Westfield, Iowa, "for my rescue from death, by Dr King's New Discovery. Both lungs were so seriously affected that death seemed imminent when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by all druggist. 50c and $1.00. Trial bottle free.

OLD WOMAN TORTURED.

Burglars on Friday night broke into the residence of Mrs. Stella Mauthner, an aged woman, who lives alone near Perinton, N. Y, and subjected her to terrible tortures in an effort to force her to reveal her savings. She was discovered Sunday by neighbors. She is not expected to recover. Two men forced an entrance to her house at midnight. They seized the aged woman, bound her to a chair and held lighted newspapers close to her eyes, allowing the flames to burn her hands and arms. Then they ransacked the house, and finding only $4, they vented their rage by beating the woman and kicking her into insensibility.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr Shoop tells mothers everywhere to give it without hesitation even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Demand Dr. Shoop's. Take no other. Sold by E. S Leadbeater & Sons.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Guaranteed under the food and drugs act June 30th, 1906. Serial number 1098.

FEDERATION OF LABOR

With much speech making, the twenty-seventh annual convention of the American Federation of Labor was opened at the Jamestown Exposition yesterday, President Samuel Gompers calling the convention to order shortly before 11 o'clock.

The first speaker of the day was Exposition President Harry St. George Tucker, introduced by Mr. Gompers. The mayors of Norfolk and Newport News spoke after him, and the last speaker to deliver words of welcome before the convention was Governor Claude A. Swanson, of Virginia.

Gov. Swanson spoke of the president and secretary of the Federation as patriotic representatives of the people, and gave unions credit for making it possible for the children of the laborer to go to school instead of work in the factory, and also for the shortening of the hours of labor.

President Gompers himself responded to these addresses of welcome. Taking figure from a recent speech of Admiral Evans, Gompers declared that if there is to be a fight between capital and labor labor would be there in either event.

Victor L Berger, the socialist member of the convention from Milwaukee, declared yesterday that he would renew the fight against Gompers for president, but admitted that he did not hope to win yet.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING, NOV. 12, 1907.

THE historic East Room of the White House was the scene yesterday, as stated in the Gazette of that day, of an exhibition of skill and strength in wrestling and boxing which delighted the President of the United States and his guests. The athletes stripped for the fray and chalked off a ring on the floor. There have been weddings, funerals, public ceremonials, official receptions and other functions of an impressive or festive character in this fine apartment, and there is a tradition that Mrs. Abigail Adams, wife of the second President, hung up the week's wash there, but never before did a wrestling match take place within its four walls. Mr. Roosevelt does as he pleases and his right there is none to dispute, but still it would seem to well thinking people that the White House is not exactly the place for such exhibitions.

A BATTLE of beer and coffee for supremacy as a mental exhilarator, was waged Sunday night at the Sherman House in Chicago, the occasion being the opening session of the Chicago skat congress. Fully 400 followers of the game had gathered to get into form for the national tournament that is scheduled for December. The crowd was evenly divided over the beer and coffee question. In nearly all cases the coffee drinkers won their games. When coffee made its appearance as a beverage it was looked upon with suspicion by many people, and it is said that when the first coffee houses were started in London the patrons of the same were frowned upon by many. The coffee house, however, had come to stay, and now an English public house without its coffee room would be Hamlet without Hamlet.

HOW THE prohibition wave in the South is affecting the internal revenue was indicated Saturday when President Roosevelt issued an order consolidating the two internal revenue collection districts of Tennessee into one district, with headquarters at Nashville. Commissioner of Internal Revenue Capers explained that the present organization is entirely too large for the amount of work involved. "In the entire 96 counties of the State," he said, "there are only 49 grain distilleries, 36 tobacco factories, 39 cigar factories, four breweries and 104 liquor dealers paying special taxes excepting those located in Memphis, Nashville, Chattanooga and Lefollette, the only cities where intoxicants can now be purchased in the State.

THE newspapers take great liberties with people now-a-days and to get up a sensational story care little for facts. Last week a young lady of this city went to Rockville, Md., from Washington in an automobile and was married to a young man well-known to her parents, the latter having made no protest whatever to the marriage. This fact was published next day. This morning several newspapers published sensational accounts of the wedding saying that the "eloping couple" were chased by the brother of the bride, on horseback, that the horse dropped dead just before the rider reached the minister's residence &c. &c. The facts are that the young lady has no brother and no one tried to prevent the wedding.

AFTER reading yesterday of the terrible loss of life approximating fourteen thousand, by a recent earthquake in Russian Turkestan, it is interesting to note that Signor Alfani, the celebrated seismologist, and director of the Florence, Italy, observatory, fears that the sun spots, which he calculates to be twelve times the size of the earth, and which will reach the solar meridian in the middle of November, are likely to lead to violent magnetic disturbances, causing storms, floods, volcanic eruptions and earthquakes. It is added that Signor Alfani's former predictions have been invariably realized.

DESPITE the fact that there has recently been a material falling off in the price of hogs and beef cattle in the Texas markets, the Fort Worth retailers say that the packing houses have advanced the price of pork loins a half cent and other cuts 1½ cents, and a still further advance is looked for. This is one of the ways the meat trust works; it lowers the price it pays the farmers for their live stock and then raises prices of meats to the consumers.

MAJ. GEN. GREELY, in an interview at Seattle, said the army was no place for the poor, as the pay of officers was too small to allow them to support their families without running into debt. This would depend upon the manner of their living. Gen. Greely must remember that the army like the rest of the world is made up mainly of poor people.

Charles Miller was committed to jail in London today to await his return to the United States under extradition proceedings. He is said to be wanted at Richmond, Va., on a charge of larceny.

From Washington

[Correspondence of the Alexandria Gazette.]

Washington, Nov. 12.

Continued drought in India and Australia is the most disturbing factor in the world's wheat market, according to a report issued today by the Department of Agriculture. Relief from the wheat shortage in Europe and North America is not expected from those districts. In parts of India, entire failure of native food crops is imminent. Argentina reports good progress. New sowings in Great Britain and France have been impaired by wet weather.

A preliminary of the delegates to the Central American peace conference will be held this afternoon for the purpose of arranging a programme of procedure and the selection of permanent president and secretary of the conference. They will assemble in the rooms specially prepared for them in the bureau of American Republics. The entire third floor has been handsomely fitted up for their use. It contains besides a large chamber for the actual meetings of the conference, several smaller ones to which delegations may retire for consultation. The conference will be opened on Thursday by Secretary of State Root, who will deliver an address of welcome. Guatemala, Honduras, and Salvador each have three delegates, while Nicaragua and Costa Rica have two each. This makes 13, but the edge of the omen is taken off by the fact that the United States and Mexico will each have representatives in the conference. President Roosevelt has invited the delegates to lunch with him tomorrow afternoon and on Thursday evening a dinner will be given by the ministers representing Central America in this country. Ambassador Creel, of Mexico, who will probably preside over this afternoon's meeting, is confident that the conference will be a success. "It is hard to say what it will accomplish," said he, "although it is too early to form any correct judgment, I surmise that the conference may result in the establishment of a permanent peace tribunal, such as that of The Hague."

The President had a talk today with Congressman Vreeland, A. T. Fancher, and N. V. V. Franchot, three big guns of the republican party in New York State, and leaders in the supposed movement to renominate Roosevelt and down Hughes. The conference was rather brief, and it was said after it ended that Fancher and Franchot had merely called to talk with the President about some leases they held in the Indian Territory, and that they would return with reinforcements to discuss them. Vreeland talked freely of politics after his visit in the President's office. "There is no concentration on any favorite son, and will be none, until the people are assured that the President will not run" said he. "If Roosevelt were to be nominated by the convention, I think the belief is that he would be forced to accept. As for Governor Hughes, there has been no movement yet that can be called an effort on his part, or on the part of his intimate friends, to capture the delegation. As between Roosevelt and Hughes, the people of New York State would undoubtedly be for Roosevelt. As between Hughes and any outside man, they would stand by Hughes." Vreeland was asked if it were a fact that ex-Congressman Wadsworth had regained control of his district and would be returned to Congress. "I would like to see Wadsworth come back," he said. Then he laughed and added "I'd like to see him taking off his hat and waving it for Roosevelt."

Five general officers of the army were designated today by the War Department to constitute a board for the purpose of selecting officers to fill two present and several prospective vacancies in the Central Staff Corps. As a result of the joint maneuvers during the past summer between the regular army coast artillery and the militia of the several States it is probable that the whole sixteen companies of the militia of Rhode Island will be turned into coast artillery companies. While reorganized on this basis they will still be available for use as infantry in any emergency for which the State might require their services.

Ex-Senator Allee, of Delaware, called at the White House today to tell the President that the republicans of the State wanted him to run again.

A stranger, said to be from Tennessee, committed suicide in a cab on the avenue near Eleven street today.

Serious errors in battleship construction continue to be made by the Navy Department, regardless of the warnings of the board of inspection and survey, according to the leading editorials in the November issue of The Navy. It charges that there are many defects in all the new battleships, arising from the "helter-skelter" method with which planning and building is carried on."

During the suspension of the trial of Mrs. Anna Bradley curious parallels are being drawn between the story to be told in this case and that which was unfolded at the spectacular trial of Harry Kendall Thaw. Court attaches are today serving summonses on 100 additional talesmen, so that when trial resumes tomorrow it is thought there will be sufficient number of men from which to obtain a jury.

Attempt to Steal a Safe.

Connellsville, Pa., Nov. 12.—Enterprising burglars early today carried a safe weighing nearly 700 pounds out of the front door of Andrew Gigliotti's store, put it in a wheelbarrow and started away. They almost escaped. A railroad call boy who saw them gave the alarm and officers who started in pursuit were able to overhaul the men. They dumped the safe off a high hill and ran.

Widener, Thomas Dolan and William L. Elkins and the firm of Moore & Schley in checks of $111,625 each, is to be investigated by the grand jury of New York city.

The Sullivan-Hopkins faction of the Illinois democratic party has addressed a letter to Mr. Bryan, urging him to lay aside his halo long enough to permit the democrats to elect a President of the United States. He is asked to give up his radical ideas and to get back to Jeffersonian democracy. The letter tells him that his own ideas, if carried out, would make Alexander Hamilton arise and dance on the gave of Thomas Jefferson.

The financial difficulties in the United States are making their influence felt on the Italian market, and yesterday the stock exchange of Rome, unable to resist the downward tendency, decided to close. Before doing so, however, a resolution was passed urging the government to help the credit of the country by assisting in the formation of a syndicate of banks to be under government control, and by placing at the deposal of this syndicate $14,000,000.

Jesse Newton Seale, manager of the northern and eastern districts of the Southern Railway system, died yesterday afternoon at the George Washington University Hospital, Washington, from a stroke of paralysis. Mr. Seale was one of the best-known railroad officials in the South. Starting in boyhood with a minor place on the railroad, he worked his way gradually up to one of the most responsible railroad positions in the South. He was born September 1, 1862, in Chickasaw county, Miss.

One of the smallest and most perfectly formed infants of permature birth ever known to medical science lies contentedly in a diminutive incubator in the room of its mother, Mrs. Edna Hess, wife of Charles E. Hess, a civil engineer in Chicago. The baby, when born, October 19, weighed little more than a pound and measured but fourteen inches in length. Over its perfectly formed wrists its mother easily slipped her wedding ring. During the three weeks that have elapsed the baby has gained only a few ounces and now weighs but a pound and a half.

Rev. Dennis J. McCartie, pastor of St. Michael's Roman Catholic Church, Newark, N. J., has excited comment in that city by statements made from the pulpit that his assistant, Rev. Thomas A. Walsh, was excluded from the bedside of a dying woman, desirous of the last rites of the church, by a physician and nurses attending her. When he returned later, hopeful that the decision against his efforts to enter would be reconsidered, the woman was dead. Father McCartie denounced the affair from the pulpit at all the services Sunday, exonerating the nurse from blame, as she was acting under the orders of the physician.

As man and wife they went to Trinidad two years ago. After the death of the "wife" Miss Vosbaugh last year was taken to a hospital, and her sex was discovered. She continued to wear her masculine clothing to the end.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit innoculated with the germs became bald in six weeks' time

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Two foreigners, who recently went to Bristol to engage in railroad construction work, died yesterday afternoon, after eating two large buzzards which they had killed. After having partaken of a hearty feast of the buzzards, they became deathly sick, expiring a few hours later.

The Georgia State building on the Jamestown Exposition grounds, a replica of the home of Martha Bullock, the mother of President Roosevelt, has been closed. Georgia did not make a very large appropriation for participation in the exposition, and this fund has been expended in maintaining the building and exhibit.

When she learned that her intention to enter suit for divorce in order to remarry her first husband had become public, Mrs. Nellie Atchison, who has figured already in two romances, was so mortified that she attempted to commit suicide by jumping from the window of her room in the third story of the house at 1914 east Franklin street, Richmond, where she resides with her grandmother.

Miss Murker, of Pennsylvania, was the principal yesterday in a mysterious exchange of handbags at the station in Richmond, by which she is the loser of jewels and silver plate valued at $1,000. The valise of the young woman was taken by a stranger, who left his own which resembles hers. It is said that the name of a man in Farmville was found inside the grip left by the man who exchanged with Miss Murker.

A dispatch from Comorn says fire early Saturday morning destroyed "Westwood," a large old Colonial house, built by General Young, of Revolutionary fame. Mr. and Mrs. Varn and children escaped from the burning building in their night clothes. Nothing was saved, and there was no insurance on the building. Before the war this farm was owned by Mrs. Ann Richards, and at her death it was inherited by John Temple, who died two years ago.

At the request of a depositor of the People's Bank of Portsmouth, Judge Bain, last night, appointed John T. Griffin receiver of the institution. The application for and appointment of a receiver followed the posting on the door of the bank of the following notice, by the board of directors: "The report of the examiners made this day, although not complete, is sufficient in our opinion to disclose that there has been a falsification of accounts and a misappropriation of the funds of the bank by the cashier, and that the consequent insolvency necessitates the permanent closing of the bank and this application to the courts for the appointment of a receiver."

Charged with attempting to criminally assault Mrs. George Hess, wife of Maj. Hess, keeper of the national cemetery, near Newport News, Robert White, a young salesman for the Virginia-Carolina Chemical Company, is confined in the guardhouse at Fort Monroe. The arrest was made by the Hampton police last night upon a warrant sworn out by Maj. Hess before U. S. Commissioner Baulch at Old Point. It is alleged that White entered the Hess home yesterday while Maj. Hess was superintending a burial. Entering Mrs. Hess's bedroom, it is charged, White attacked the woman and threatened to kill her if she did not keep quiet. Attracted by screams from the room, a man who was in Maj. Hess's office went to the rescue, appearing on the scene in time to see White escape.

COLD WAVE.

Chicago yesterday got a touch of the wintry weather that is prevailing in more southerly cities. Snow, accompanied by a strong northeasterly wind, swept Chicago late yesterday, causing the temperature to fall below the 20 degree mark.

William, W. Va., reports six inches of snow, and at Cleveland, Ohio, street car traffic was interferred with on account of a heavy fall.

Several inches of snow have fallen in northern Wisconsin and Michigan, making conditions ideal for bear hunting.

From Missouri and Kansas come reports of snow.

The cold wave that reached north Texas Sunday night is still rolling over the State. The mercury has dropped to the freezing point in the vicinity of Dallas. Snow and sleet have fallen over Oklahoma, and there have been flurries of snow at Dallas.

Today's Telegraphic News.

Clarkson and Miss Maloney.

New York, Nov. 12.—How to wipe out that Montreal marriage between Samuel Clarkson and Helen Maloney—or is it Mrs. A. H. Osborne—from the records is the question which is puzzling Standard Oil millionaire Martin Maloney's legal advisers today. Maloney's representatives have denied all along that there was a Montreal marriage. It is generally believed he knew of it all along. As a result of yesterday's developments in London everybody now believes it took place. Assuming that Miss Maloney married A. H. Osborn two years ago, the Montreal marriage was, of course, invalid. That one should have been performed, however, places the young woman in a most awkward position.

Just what the Maloneys will do is not clear, and friends of the family say they think the Maloneys themselves have not yet definitely made up their minds. Assurance that a Montreal marriage was performed came to light through the young people's efforts to be re-united after their arrival in London. Both admitted, at the marriage registry office, that they had been wedded in Montreal, but Clarkson said they were not sure that the ceremony was binding. The registrar refused to comply with their request without submitting the case to Sir William Dunbar, the registrar-general, and the latter, after several days investigation, refused a license.

Wants a Fair Trial.

Georgetown, Ky., Nov. 12.—"I want a fair trial, not a pardon." This was the vehement declaration, of Caleb Powers, former Secretary of State of Kentucky, who has thrice been convicted of complicity in the killing of Governor William Goebel, once facing a sentence of death and twice life imprisonment. But in each instance his sentence was reversed.

Powers, through his attorneys has claimed that the juries that have convicted him were partisan, that speeches for the prosecution were appeals to partisan prejudice, and that the trial judges in their interpretation of the laws of evidence, invariably favored the prosecution.

More than sixty witnesses were missing when court was convened today.

Mills Close Down.

Boston, Nov. 12—Caused by the financial depression and stringency in the money market, as explained by officials, numerous big mills throughout New England today have closed down or gone on short schedules. In some instances the curtailment will be only temporary.

Today the Rice and Hutchins shoe factories at Rockland, Marlboro and South Braintree went on a half time schedule to continue indefinitely. About 2,200 men are affected. At Wesboro the Hunt leather goods factories, H. E. Bingham Shoe Company, and Hass Lace Curtain Co. began running short time with some layoffs. One hundred loom fixers of the textile mills in Worcester have been laid off temporarily.

Affairs in Cuba.

Havana, Nov. 12.—The last of the Americans who came to Cuba to take strikers places on the United Railways sailed for New York today. Officials of the company say the fight is entirely over, that violence has practically ceased and that trains are all running on their regular schedules.

Havana, Nov. 12.—Five million dollars of government money is now available, it was announced today for the assistance of the planters who have been seriously embarrassed by the currency famine. The supply goes far toward relieving the stringency.

Five Victims of a Fire.

New Haven, Conn., Nov. 12.—Firemen continue to search the ruins of the Hotel Garde, in which it is rumored that victims as yet unaccounted for are still buried. Thus far, however, there have been no additions to the list of five known killed and four injured in the fire early today. The dead are three porters, a hall man and an unidentified Polander employed in the kitchen. Though driven from the hotel in panic none of the 150 guests were injured. A lighted cigarette, dropped on the corridor floor, is supposed to have started the fire.

Wants to March on to Washington.

Nashville, Tenn., Nov. 12—Carrie Nation wants to lead "on to Washington," charge of the temperance people of the country. Mrs. Nation arrived here to attend the national convention of the W. C. T. U. A., and today aired her views at length. She wants Congress to take up the matter, and thinks the temperance people should invade Washington in force to impress the national legislators with the necessity of doing something. Mrs. Nation created some excitement today by snatching cigarettes from the mouths of men on the streets.

Want Southern Candidate.

Nashville, Tenn., Nov. 12.—A strong boom for some southern democrat for the presidential nomination will probably result from the conference of democrats of the southern States which began in the capitol today. Fully 500 delegates are in attendance. All the talk before the conference formally opened favored presenting a candidate for the South to rally about. Governor Folk, of Missouri, was most frequently mentioned as the likliest man to rally strong support.

Affairs in Persia.

Teheran, Persia, Nov. 12.—To prove his loyalty to the new Persian constitution, the Shah is braving threats of assassination by attending today's session of the National Assembly. A strong body of troops surround the assembly's place of meeting and admission is by ticket only, even to members of the cabinet. The popular feeling against the ruler is due to the conviction in many quarters that he seeks to nullify the constitution and return to absolutism.

Walsh at the Bar.

Chicago, Nov. 12.—John R. Walsh, railroad magnate and millionaire, faced the federal court today to answer charges of the defalcation of $15,000,000. Because of former associations with the banker, Judge Landis, of Standard Oil fame, refused to hear the case, and Judge Anderson of Indianapolis presided in his stead. Walsh is under two indictments of more than 150 counts for the alleged looting of banks.

Safeguarding Royalty.

London, Nov. 12.—Political "reds" are not going to find London a very safe place for the next forty-eight hours. The kaiser will make the only public appearance of his stay in England tomorrow, and Scotland Yard is in a fever of apprehension lest an attempt be made upon his life.

The authorities naturally deny the story that evidence has been discovered of a plot to assassinate him, but the precautions taken to guard him on his way from Windsor to London, during his stay here and on the return trip, indicate a great deal of uneasiness.

The kaiser has accepted the City of London's invitation to lunch with the Lord Mayor. It is much more difficulty to keep crowds at a distance in this country than in Germany, and some grounds seem to exist for the fear that the terrorists from the continent may deem the oportunity a good one for a blow at a crowned head.

The railway line from Windsor to Paddington station will be inspected almost inch by inch, a dummy train will precede the Kaiser's special both going and coming, and the twenty-one mile run will be made between nearly continous lines of troops.

Windsor, Nov. 12.—The Kaiser is understood to have received a professional visit today from Prof. Sir Felix Semon, a noted throat specialist and personal physician to King Edward. Wilhelm's convalescence seems to be progressing satisfactorily. He was abroad early today and left soon after breakfast on a shooting expedition with King Edward in Windsor forest.

Miss Simonton Will Testify.

Pittsburg, Nov. 12.—Ida Simonton, much wanted witness in the last Thaw trial, who was present at many of the thrilling incidents in Europe, participated in by Harry Thaw, Evelyn Nesbit and Mrs. Nesbit, arrived here today and announced that she will testify in the coming trial.

"My testimony will favor Mrs. Holman, formerly Mrs. Nesbit, who has always been my warm friend," said Miss Simonton today. "And you may say this—my testimony will change the whole aspect of the case. I'll fix Harry Thaw for getting fresh and if I get a chance to talk in this case. I'll show the truth about this blackmailing story of his."

Miss Simonton said today that she hurried to Paris in response to a cablegram and found that Harry and Evelyn had gone there together leaving Evelyn's mother in London.

"When I arrived in London," said Miss Simonton, "I found Miss Holman in absolute destitution. I spent part of my money to get clothes for her."

The Countess's Impressions.

London, Nov. 12.—"Anarchistation," not organization, of industry is in progress in America, says the Countess of Warwick in the first public statement she had made since her return from her recent visit to the United States. The countess, the "babbling brook" of Tranby Croft fame and one of the most conspicuous figures in the English socialistic movement, has fairly startled Great Britian with the dark picture she paints of conditions in the new world. Her trip to America, she explained, was social rather than for the purpose of study, but she could not help noting the trend of events and in telling of what she saw and heard, declares socialism the country's certain and only hope of rescue from the capitalistic oppression of which she says she saw evidences everywhere.

The Part Morgan Played.

New York, Nov. 12.—"What did Morgan really do in the financial crisis and how much did he make out of it?" is a question agitating Wall street.

Careful investigation completed today shows that Morgan took the lead on three principal occasions. In each his personality weighed more than his money. Both Rockefeller and Carnegie put up more money than Morgan did, but Morgan took all the glory.

In the first place Morgan is not nearly as rich as he is credited with being. In 1903 he was badly nipped, in the Northern Pacific corner, and for a time was a borrower instead of a lender. Today his accounts balance some millions to the good, but the total is small compared to some of the oil and iron fortunes.

Rendered Thanks for Deliverance.

St. Louis, Nov. 12.—Twenty girls, clad in their night gown, knelt in the prayer room of the Gospel Rest room league, early today and sang "Praise God From Whom All Blessings Flow," while flames cracked about them and threatened to burn away the steps leading to the street. The girls were asleep when patrolmen aroused them. They attempted to rush into the street, but were prevented by Mrs. Lillian C. West, the superintendent. "Enter the prayer room, girls," she cried. "Pray and you will meet no danger." The girls turned away from the door and fire escapes and rushed into the prayer room. After the fire department had succeeded in extinguishing the fire, the inmates gave up a thanksgiving prayer and went down into the breakfast room.

Head-on Collision.

Pittsburg, Pa., Nov. 12.—One hundred passengers narrowly escaped death, four were seriously injured and the Chicago-New York 18 hour special train, leaving Pittsburg at 12:54, was wrecked in a head-on collision with a stationary freight train near Larimer, 20 miles east of here today. The operator moved the wrong lever on the interlocking switch system, and the flyer dashed into the caboose, disabling and derailing the engine and converting the freight cars into a mass of broken wood. The sleeping passengers were hurled from their berths and two men and three women were severely bruised.

New York Stock Market.

New York, Nov. 12—The upward movement was carried along for a good part of the first hour; prices of many of the leading issues making gains from one to 2 points over yesterday's close. Before the hour ended, however, there was a larger supply of stocks and prices reacted in some cases enough to more than lose all the opening gains. Price movements continued quiet after the first hour. At noon practically everything traded in showed some decline from last night's close.

Woman Discharged from Custody.

Cleveland, O., Nov. 12—Mrs. Charlotte Phillips, charged with the murder of her husband, J. J. Phillips, the coalman, was discharged from custody by Justice Brown today. He held that there was not enough evidence against Mrs. Phillips to warrant him in holding her to the grand jury.

KILLED BY JEALOUS RIVAL.

William Franklin, aged twenty-three, was shot and killed Sunday night by Clarke Norton, aged twenty-two, at White Rock, N. C. The killing occurred at the home of George Franklin, an uncle of young William Franklin, and was brought about by Norton's jealousy of Franklin's attention to Miss Elizabeth Gentry, a pretty seventeen-year-old girl with whom the two men were both in love, and who was a niece of George Franklin.

Norton and Franklin had been the best of friends for years until their love affair came between them some time ago. Lately they had been on speaking terms. Sunday night Norton went to call on Miss Gentry and found Franklin there. Some words ensued, and Norton, who was armed with a pistol, opened fire on his rival. Miss Gentry screamed for help and ran from the room.

Norton escaped, but was arrested yesterday morning. He was taken to Marshall and put in the county jail. Norton says he shot Franklin in self-defense. Miss Gentry is reported to be in a hysterical condition as the result of the affair. Both Norton and Franklin belonged to prominent families.

NEW TELEPHONE LINE.

A new telephone line, with sixty instruments on it, will shortly be in service through Westmoreland and King George counties, extending from Colonial Beach and Oak Grove to Fredericksburg. This service, it is stated, is in addition to that already established and will take in points along both the Potomac and Rappahanock rivers. The telephone companies have never built a connecting line between Alexandria and Fredericksburg, although it is stated the ends of telephone communication extending from the two cities are within twenty miles of each other and go through a rather thickly settled country. To get a message to Colonial Beach or other points along the lower Potomac from this city, it is necessary to telegraph to Fredericksburg and from there the message is sent by 'phone to its destination' often causing a delay in the transmission of a message of several hours.

THE CHILDREN'S HOME.

The ladies of the W. C. T. U. are having a rummage sale on the corner of Wilkes and Royal streets for the benefit of the Children's Home. Any donations, especially ladies skirts and men's clothing, will be thankfully received any time during the week either at the Home or the place mentioned above.

The regular business meeting of the Allison W. C. T. U. will be held as usual Thursday afternoon at 3 o'clock at the Children's Home on Duke street.

The regular weekly prayer meeting will be held at 7:45 o'clock Thursday evening at the Children's Home on Duke street.

NEW LOCOMOTIVES.

It is reported that new locomotive engines have been provided by the Southern Railway Company for its Bluemont branch, and will be put on the road before the 17th instant, when trains will be run into the new Union station.

It is learned that no provision can be made for stopping trains on Maryland avenue at 8th street for the accommodation of commuters employed in the uptown offices, and that until the completion of the substation at 14th and Water streets, the foundation for which is now being constructed, and which is to be completed in about two years, all trains will go through to the new depot.

AN INCORRECT RUMOR.

A report was circulated in this city yesterday to the effect that a couple had come here from Washington and been joined in wedlock by Mr. R. D. Rogers. The rumor originated in Washington, and the parents of the young man and young woman came to this city to ascertain if Mr. Rodgers had tied the knot. They found that gentleman at Smoot & Co.'s lumber yard, where he is employed. Mr. Rodgers told the anxious parties that while he occasionally preached, he was not authorized to celebrate the rites of matrimony.

FUNERALS.

The funeral of the late Miss Blanche Hamilton, took place from her late home, 728 Jefferson street, this afternoon. Rev. Dr. W. W. Van Arsdale conducted the services, and the interment was in Bethel Cemetery.

The funeral of the late Benjamin F. Waters, who died Sunday, took place this afternoon from his late residence on south Patrick street. The interment was in Union Cemetery. The services were conducted by Rev. Edgar Carpenter.

CRIES OF MURDER.

Early Sunday night cries of murder were heard on the Maryland flats, and several persons who were on the river front at the time entered a boat and proceeded in the direction from which the cries emanated. They found several persons in a pleasure boat, but upon drawing near saw no reason for the cries of distress. The party seemed to be in a hilarious mood, and the Alexandrians left them. The excursionists are supposed to have been Washingtonians.

SENT TO JAIL.

Officers Knight and Ferguson last night arrested a youth named Paul Clements as a suspicious character. He was found loitering about the Opera House after the close of the exhibition at that place. Clements was brought before the Police Court this morning when Officer Knight stated that the youth about two years ago was sent to the reform school in Washington for stealing a horse, and had been paroled. Justice Caton sent him to jail for 30 days.

THE MERRY COBBLER

Morris Holmes (Miss Stanton), while in Berlin, Germany, marries Gretchen, the niece of a rich German baron, against his wishes. They live together for a few years but tiring of her he comes to America and locates in New Orleans, bringing with him their little daughter, Lelia, and places her in the family of a well-known citizen. His brother-in-law, Franz, on account of his old uncle's cruelty, emigrates to America—also locates in New Orleans. This Holmes falls in love with a Stella Derrom and is engaged to her when his brother-in-law, suspecting that something was wrong, keeps an eye on him and learns that he intends to return to Germany, and wants him to go with him and claim a large fortune. His wife in the meantime escapes from an insane asylum in which he confines her, comes face to face with him and under certain promises does not disturb him. The climax winds up by Holmes being caught in his dirty work. Franz marries Stella with the consent of her father and Holmes is sent to prison.

REV. MR. HOBBS.

The protracted meetings at Beulah and Woodlawn churches in Fairfax county, which have been conducted by Rev. C. K. Hobbs, of Del Ray, have closed. The results of these meetings were 54 conversions and 49 received into the church and others will follow. Mr. Hobbs will preach at Beulah church next Sunday at which time the hand of Christain fellowship will be extended to those who have just joined the church.

The people of Del Ray are anxious that Mr. Hobbs should begin a protracted meeting with them at once, but as it is generally understood that he will go to Albemarle county next week to be married to a charming young lady of that county, of course he will not be able to hold such meeting immediately.

Mr. Hobbs will preach for Rev. Dr. W. F. Fisher at the Baptist Church in this city tomorrow night.

Price, J. F. Cook, James Talbot and Oliver Underwood.

COLDER WEATHER.

The weather during the past forty-eight hours has undergone a marked change. On Sunday afternoon the temperature was too high for comfort; last night it was too low, enough to bring out overcoats. The temperature continued to fall during the night, and this morning the wind was from the northeast, with the weather raw and cloudy and indications of snow or rain. There were occasional "spits" of snow during the day and at noon the mercury registered 45°.

THE AMERICAN IDEA.

Individualism the Keynote of Our National Success.

Charles L. Edgar and Walton Clark of the National Civic Federation Commission on Municipal Ownership Show Why American Institutions Should Not Be Abandoned at the Demand of Socialists and Municipalizers.

The efforts of the National Civic federation have resulted in a commission of Americans whose first interest in this investigation, as in all else, is to do what they may to preserve and continue the American idea and American institutions, believing that the high state of civilization and prosperity in America justifies the American idea and the American method and places the burden of proof heavily upon those who would say another idea and another method would result in improvement in the condition of the people.

Believing this to be the thought and intent of the membership of the commission and of the committee subordinate to it, we still believe that there are ills in the American body politic that may be remedied or cured. We believe that the remedy should be applied and the cure effected without any unnecessary departure from the American idea and the American system. We believe that the framework upon which may be built purity of administration and the highest possible good of the citizens is in existence with us and that it is not necessary in the effort to cure the ills from which the body politic may be suffering to destroy that body. We submit that, living in a land where peace and prosperity are the common lot, we must be very cautious of change. This does not mean that where abuses are found to exist they should not be promptly and mercilessly eradicated, but it does mean that changes in system should be undertaken only after conclusive proof that such changes will result in bettering the condition of the individual. We had better bear the relatively few ills we have than subject ourselves to unknown conditions that may bring in their train greater ills of which we do not know.

Our investigation has determined with certainty many heretofore mooted questions. It indicates the probably correct answers to other mooted questions. Where the facts are clear and the conclusion evident our task has been to summarize and indicate. Where there is remaining uncertainty as to facts and conclusions are not evident we have made an effort to determine the probabilities. This has resulted in arguments based on such facts as our investigators have recorded and on our own experience as operaters and observers.

We believe no intelligent reader of the voluminous record of this commission's work will fail to conclude that it clearly proves municipal ownership to be productive of many and serious ills, with little or no compensating good.

The writers of these chapters, agreeing, we believe, with the other members of the committee of twenty-one, that public service companies should reasonably be regulated and afforded the protection that comes with regulation and appreciating that the committee was not appointed or constituted to consider methods of regulation, nevertheless desire to record their opinion that some form of regulation of private companies should be adopted in each of the United States. What that form should be this commission is not prepared by any investigation or any study it has made to suggest.

Finally, we who stand in opposition to municipal ownership, speaking, we believe, for all individualists, arraign the arrogance of many of its advocates in assuming that they exclusively occupy the field of reform in dealing with the problems concerned and that they are the sole promoters of measures of economic improvement in municipal affairs. We assert that the opponents of municipal ownership and operation, firm and consistent supporters of justice, are the class seeking the public welfare intelligently and in accordance with American principles. On this point we do not yield to any body of men.

We seek, as a first principle, to insure every man his own. In doing so and in endeavoring to protect the public against oppression and error we find it our duty to demonstrate the errors in the schemes of municipalizers and Socialists and to warn against the oppression that they threaten. We are resisting efforts to put burdens on the backs of the American people. We cannot and will not remain silent while the attempt is made to thrust costly and impracticable projects upon customers of public service corporations and upon the public at large.

We know the truth will out. We are confident that ultimately the American people must appreciate at their value the unsoundness of the arguments of the municipal Socialists. We shall aid in hastening the day when our fellow citizens will know through discussion what the public of London have been taught by bitter experience. London has awakened to the perils of municipalization, as is evidenced by its verdict in the recent borough and county elections. In that great city the municipalizers have led their fellow citizens astray, and their dupes, finding it out, have administered to their false guides an overwhelming rebuke.

We individualists are not seeking to lead the people in strange paths. Our aim is to keep them in the paths they have heretofore trod—paths well known, along which the American people have marched to heights of prosperity and civic development not known heretofore to the civilized world. Along these paths have been stumbling blocks. Our opponents are endeavoring to persuade us the sole responsibility for these stumbling blocks rests upon our public service system, to be remedied only by a change of system. This we deny. We are patiently studying the ways of justice. Municipalizers advocate experimenting at enormous cost with public funds, with the principles of liberty and with the institutions of our country. In this we stoutly refuse to take part.

We are conservatives in believing that it is better to adhere to old and tried methods based on our accepted national principles, but radicals in the determination to discover and to sternly rebuke and rectify any injustice which may have been developed by the present system. As it has always been the function and duty of government to insure that individuals shall deal justly with their fellows, it is now the function and duty of government to protect the governed against injustice on the part of these associations of individuals working under the name of public service corporations.

Any government that is too feeble or corrupt to control with justice the conduct of a public service corporation has little prospect of being able itself to supply such public service with efficiency and justice. Our duty is to elect to office men who have the intelligence and integrity to govern efficiently, honestly and justly—men who can and will curb the unjust aggressiveness of the individual or of the voluntary association of individuals and who can and will compel each to bear its share of the burdens of government and give in price, service or otherwise a proper consideration for special privileges enjoyed.

Our nation is what it is industrially and commercially and in world politics because of the American character, developed by the most absolute individualism, and because of the American corporation, developed under a government that governed, but did not trade. Our duty is to conserve the human agencies that have made our country what it is—the adventurous individual and voluntary association—but not to let them be our masters. This is the confession of faith of the antimunicipalizer, the anti-Socialist.

XENIA'S LOSS $90,000.

Depressing Experience of an Ohio City With Municipal Lighting.

In response to an inquiry in regard to the municipal electric light plant Mayor Brennan of Xenia, O., writes as follows:

"The city paid upward of $21,000 for a light plant, and the cost of running the same was at the rate of $103 per lamp. The plant was badly run, the operating of the same being in the hands of a committee of councilmen who were inexperienced and, of course, drawing no salaries, did not give it the proper attention. All they got out of the sale of the works was $2,500. The city afterward entered into a contract with a private corporation, and the price now paid per lamp is $63."

Another authority states that the amount ultimately invested in the plant was $35,000 and that the loss when it was sold, together with the excess cost of operation over what the lighting would have cost by contract, amounted to more than $90,000; in other words, that that sum represents the cost of the experiment.

Respectfully Submitted.

Recommended to the public utilities commission:

First.—Immediate suppression of the surreptitious subway smoker.

Second. — Municipal ownership of apartment house janitors.

Third.—Make it unconstitutional to play "Arawanna" or "Poor John" between the hours of 12 m. and 12 p. m., inclusive, and vice versa.

Fourth.—Provide subway guards and trolley car conductors with safety razors.

Fifth.—Free and unlimited coinage of lemonade.—New York Mail and Express.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. Lost my usual force and vitality. Pepsin preparations and catarrhics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally.—MRS. ROSA POTTS, Birmingham, Ala.
